Authorization for this examiner's amendment was given in a telephone interview with Patrick S. Yoder (281-970-4545) on 10/05/2006.

2. The application has been amended as follows:

**In the Specification (filed on 2/18/04):**

The prior art does not teach or fairly suggest all of the limitations of the claimed invention including a method of manufacturing an electric motor with the step of disposing a stator already having a plurality of inserted stator leads into a lead separating assembly, the leads extending beyond the stator from windings installed in stator slots or the step of gathering the plurality of stator leads together into a bundle by placing the plurality of stator leads extending freely from the stator into a lead collector and rotating the lead collector to wind the stator leads together.

4. Any comments considered necessary by applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
